AMEN INTERACTION PROCEDURE

Location: each day is a new clinic

1. Monday - Evelyn Lekganyane clinic.
2. Tuesday-Makanye Clinic.
3. Wednesday-Dikgale clinic.

Sample: from each clinic 6 Family Members (decision makers, grandmothers etc…), 6 CHW (including the mentor mothers) and 6 Pregnant Women

UL and UCT researchers as well as a translator present throughout.

Part A (1.5 hours): Predefined Task Interaction and Individual Assessment

Participants complete predefined tasks on the app and each social media channel as a group (30 minutes total: 10 minutes per channel, at 2 minutes per task), followed by an individual Usability Survey (15 minutes) and an individual Semi-Structured Interview (15 minutes).

Sequence: Application interaction → Application usability scale → TikTok interaction → TikTok usability scale → YouTube interaction → YouTube usability scale → open-ended interview questions.

One facilitator per group reads out all tasks and questions in both English and Sepedi.

Part B (1.5 hours): Co-Design Session

One facilitator per group reads out the instructions and probes in both English and Sepedi.

Interaction Plan

(Part A separate but parallel but co-design is together)

Monday 20/07	Tuesday 21/07	Wednesday 22/07
